

Random Number Generator Certificate

Operator: Equity Marketing Management N.V.

URL: www.equitypokernetwork.com

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) used for card shuffling by Equity Marketing Management N.V. and found that the RNG fully complies with the relevant standards*.

The RNG uses a widely recognized algorithm to generate the random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs have also evaluated the scaling of the RNG generated numbers and the shuffling of the cards. Chisquare tests were applied to large number shuffled decks. iTech Labs has found that the card sequences are unpredictable and non-repeatable.

The certified code for the RNG has been fingerprinted.

Signed:

A handwritten signature in black ink, appearing to read "Ian Manning".

Ian Manning
Principal Consultant
iTech Labs Australia

Date: 18 December 2013

***Notes:**

The RNG was tested according to the relevant Alderney Gambling Control Commission (AGCC) standards. The software provider or operator of the gaming site may not necessarily be licensed in the gaming regulatory jurisdiction whose technical standards have been applied in the testing process. Before making enquiries with the gaming commission, check whether the gaming commission's logo is present on the gaming site's home page or undertake independent enquiries with the operator of the website.

Disclaimer

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
